_____

General Specifications

The RChain Bid Approval Committee (the "Committee") will review your bid and provide you with written notice of the Committee's approval or rejection of your bid ("Bid") within five (5) days of your submission. If the Bid is rejected, you will have ten (10) days from the day written rejection is sent to submit a revised Bid. If the Bid is approved, it will be posted to the RChain Membership for a Project Submissions.

By submitting this bid ("Bid"), you agree to use the terms of the Task Service Agreement should your Bid be approved by the Committee.

- Use best practices, such as comments, unit testing, etc.;
- Project submissions implementation must be fully documented; and
- Project submissions must be open source, with an appropriate license, and published on GitHub.

Disclaimer

If selected and approved by the Committee, Project submissions must be publicly available on GitHub. Compensation will be awarded in RHOC, which may be used within the RChain platform. The selection and approval of a Project submission is final; there is no appeal process. By submitting a Project Bid, you agree to the RChain Project Special Partnership Agreement and the terms therein if your Project is selected by the Committee.
